## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the Troy School Board:

I herewith submit to you my second annual report as Superintendent of Schools. The new educational law which placed the entire state under supervision made but little geographical change in this district. This has been of considerable advantage since the numerous reports of teachers, work, buildings and finance would have nearly overwhelmed one not fairly well acquainted with the situation.

I am pleased to report that, notwithstanding the interruptions last year on account of sickness and changes in the high school the Troy High School not only held its own, but advanced. At the opening of the school year 1918-19 the school was on probation. The work done last year has placed the school again on the approved list.

Mrs. Wight, who had charge of the high school during the first half of last year, was induced to return again as principal and has continued her work in a capable manner.

In order to give the required periods to the high and junior high classes, we found it necessary to return to three teachers, and Miss Dorothy M. Atwood, a graduate of Smith College, and Miss Lillian B. Lariviere, a graduate of Fitchburg Normal, with two years of experience in East Jaffrey, were chosen as assistants.

The work in the high school has been good and the progress has been encouraging. That of grades seven and eight, while fair, has not been as good as the pupils are capable of doing. This is not a new condition; it was apparent last year and the year before and as yet we have not succeeded in fully correcting it. The same pupils who are well organized and do excellent work in the sixth grade have not maintained the same grade of work nor exhibited the same loyalty to their school that they showed in the primary school. This is a situation that I feel can be remedied only by the heartiest cooperation on the part of the parents of the pupils in these grades.

We were fortunate in securing Miss Pearl M. Olsen as principal of the primary building. Miss Olsen is a graduate of Washington State Normal School at Machias, Maine, and has had teaching experience in Maine, Massachusetts and New Hampshire. The building is well organized and the work is progressing in a satisfactory manner.

Miss Platts, Miss Colley, Miss Agnew and Mrs. Brown accepted their re-elections and the schools in this building have the advantage of having so many teachers who are not only experienced in their work but are in a position to be well acquainted with the needs of their pupils.

All the rooms in this building have too many pupils to secure the best results. The enrollment has ranged from 38 to 47. It would be more satisfactory if no teacher had more than thirty or thirty-five pupils at the most. There seems to be no prospect of securing any more room at present.

The school at West Hill was in session thirty-one weeks last year, and Mrs. Bertha Howe, who succeeded Miss Brown during the winter term, again has charge of this school. There

has been an enrollment of 15 pupils as against 14 last year.

We were glad to be able to retain the services of Miss Holtham as supervisor of music and she is continuing her work in an acceptable manner.

During the summer vacation a laboratory table was equipped for the work in elementary science and new closets were installed in the high school building.

The size and arrangement of the high school building makes it difficult to suggest any change in the organization for another year. It will be difficult, if not impossible, to have grades seven and eight do the work of a recognized junior high school until room can be obtained for domestic arts and possibly manual training. The expense of remodeling the building to meet these needs would be considerable, and it may not be feasible to consider such an arrangement on account of the greater opportunities offered at Keene. I wish, however, that there could be some way of holding a greater number of pupils through the two years of high school work offered.

The big problem facing not only Troy but every other district in this section is that of retaining and securing competent teachers for another year. General Streeter of the State Board of Education quotes figures showing that twenty-two per cent of the teaching force of the country have dropped out of the profession in the last year. The reason most generally assigned for these conditions is the inadequacy of salaries to hold teachers now in service and attract new ones to that service. Our normal schools are graduating barely fifty per cent of the number only a year ago.

In order to meet this situation we must grant a substantial raise in salaries. Troy has fared exceptionally well during this

period of unrest and I believe is ready to offer the needed increases to hold our schools to the desired standard.

I wish to thank the citizens for the support they have given me and the teachers; the school board for their help and cooperation; and the teachers for their loyalty and good will. It is only as we work together that the best results can be obtained.

Very cordially yours,

LEWIS S. RECORD,

Superintendent of Schools.

East Jaffrey, N. H., January 31, 1920.
